

Samadhi(2019-2021)

Kare-sansui or dry landscape garden is the Japanese traditional gardens, which only uses rocks and white sand to express mountains and water abstractly. While Hasumi Hiroaki was sitting down in front of the garden, he was led to the deep world of meditation and filled his imagination. Then he realized that Kare-sansui can release us from the sufferings of the material world.

枯山水は石と砂のみで山水を抽象的に表現する日本庭園である。蓮見浩明はその庭園の前で深い瞑想の世界へと導かれ、想像力を膨らませていった。そして枯山水は物質社会の苦悩から人々を救うためにあることに気づいた。
