

Title : Embracing Despair, Discovering Peace

— Message from Fukushima —

地震と津波の被害、原発事故による放射能の被害、避難することによって日常が壊れ、村社会や人間関係が壊れ、風評による被害も被った。そんな幾重にも重なった不運によって絶望の淵にある人々も、時が流れることによって前向きに人生を再構築し始めている。暗闇の中でも希望という一縷の灯りを見つけて、前向きに生きている人々に明日への強いメッセージを感じた。

The earthquake and the damage caused by the Great East Japan Earthquake, the radiation damage caused by the nuclear power plant accident, and the evacuation further damaged daily life, village communities, and human relationships. They also suffered damage from rumors.

Even those who are in the depths of despair due to such multiple layers of bad luck are beginning to rebuild their lives positively with the passage of time.

I felt a strong message for tomorrow from the people who found a glimmer of hope in the darkness and are living positively.
