
Youkai No Kuni

Youkai come from the old Japanese animistic religion, and have appeared in Japanese history for over a millennium. They are believed to live in another dimension and said to be a kind of multitudinous gods. I think people have a good and bad side. As almost all people are self-centered, we are unconscious about our own weaknesses. We might keep the balance of our lives by seeing the objectivized Youkai in the festivals.

(Japanese handmade washi print)
